How do I update my password for my UNCC Google account on my Android device?

Tell Me

After changing your NinerNET password in PWmanager:

1. The next time your phone attempts to sync your UNCC Google account, you should receive an **Account Action Required** notification. Click on the notification.

2. A **Couldn't sign in** message will be shown, letting you know either an incorrect password was entered or your account has changed. Click **Try again**.

3. You will then be taken to the UNCC login screen, where you can enter your **username** and new **password**.
