What are Fallthrough Courses?

Tell Me

1. The Fallthrough Courses section contains courses that a student has taken and completed successfully that do not have a place in the audit. That is, the course does not complete a requirement for the program. If a student has been given permission to substitution one of these courses for a requirement in the program, an academic petition must be submitted in order to apply the course.
2. The course will remain in the Fallthrough Courses section until the academic petition has been processed.
