What should I do for antivirus if I was using Trend at home?

Tell Me

Trend Micro Antivirus for home use will expire in September of 2017. Windows Defender (Windows) and Sophos (Windows & Macs) will be the home use options. If you have been using Trend you will need to uninstall Trend and install one of those options.

To Uninstall Trend:

1. Windows: Follow these instructions using the built-in Trend Micro Diagnostic Toolkit
2. Mac: Follow these instructions

To Install Sophos on a personal computer:

1. Follow these steps.
