How do I share a YouTube video in a WebEx Meeting session I'm hosting?

Tell Me

1. You can share a YouTube video with your participants by using the **share application** option. If you select the share screen option, participants won’t be able to hear the audio.
   a. When you’ve started a session, click the **arrow/more button** for sharing and then select your **browser** where the YouTube video is open.
