How do I create a VeriCite assignment in Canvas?

Tell Me

VeriCite assignments are created by selecting the checkbox in the Assignment settings

1. In your course, click the **Assignments** link

2. Click **Add Assignment**. The Create new page is displayed

3. In the **Assignment Name** text box, type the name of your assignment
4. In the text box, type the assignment directions
5. In the **Points** text box, type the highest grade students can receive
6. In the **Assignment Group** drop-down list, select the group that the assignment will be a part of

7. In the **Submission Type** drop-down list, select **Online**
8. In the **Online Entry Options** area, select the type of submission
9. In the **Online Entry Options** area, select the **Enable VeriCite Submission** check box
10. Click the **Advanced VeriCite Settings** link
11. Students can see the Originality Report immediately by default. To change that, in the drop-down list, select when you want students to have access to the report.
12. Specify whether or not you want to exclude quoted material.
13. Specify whether or not you want to exclude self plagiarism.
14. Specify whether or not you want to store student files in the UNC Charlotte VeriCite library.
15. Click **Update Settings**.

16. Select the due date and the available from dates.
17. Save and publish the assignment.
