What is Poll Everywhere Student Response Tool?

Tell Me

On May 15, 2017, Poll Everywhere replaced Turning Point Clickers as the university's student response system. Poll Everywhere provides faculty with the ability to display polling questions via a mobile-friendly website. Students will be able to engage with the polling content by responding to the questions on their mobile devices (smartphones, tablets, & laptops). Poll Everywhere is fully integrated with Canvas and reports can be generated for uploading grades into the gradebook.

Note
Poll Everywhere how-to guides are located on the University's FAQ site.

More information available on the Center for Teaching and Learning's web site.
