1. Hosts can share their screens in a Zoom meeting including sharing a video clip
 2. We suggest [enabling these features](#) for the best experience:
 - a. Check **Share Computer Sound**: If you check this option, any sound played by your computer will be shared in the meeting.
 - b. Check **Optimize for full-screen video clip**: Check this if you will be sharing a video clip in full-screen mode. Do not check this otherwise, as it may cause the shared screen to be blurry.
 3. See this [Zoom support page](#) for more information
